

OPERATING INSTRUCTIONS

Note: It is very important that the donuts are hot when placed in the bag.

www.statefairminidonuts.com

START UP

1.

- Turn on the conveyor oven to full power
- Warm up time is approx. 10 mins.
- Set speed dial to 6.5-7.5 (speed may vary depending on outside air). You want them hot, but not burnt!
 - If the donuts are getting too hot OR catching in the back of the oven, simply remove the crumb tray and set aside.

OPERATION

2.

- Place desired number of donuts flat on the conveyor belt.
- In approx. 45 seconds when they drop to the bottom, place them in a State Fair Mini Donut bag
 - Heating times may vary if using an alternative heating method
- Sprinkle donuts with flavor of choice
- To ensure even coating, fold the bag over, shake and serve.
It's that EASY!

3.

CLEANUP/ END OF DAY

- Turn off the oven and allow to cool
- Remove the crumb tray and wipe out the machine with a damp rag
- As needed, turn the oven to the lowest speed and use the provided wire brush to clean the conveyor
